Child Portfolio Guide

What goes in the portfolio?

- Writing sample (1) & Art sample (1) from each quarter.
- Completed ASQ's **scoresheet** (minimum one per year)
- Child information; IEP's and related information, Completed permission slips if applicable
- DO NOT PRINT OBSERVATIONS

What goes in BrightWheel?

- Observations
- Photos
- Parent Communication

When it comes to documentation Evidence of Learning is the focus.

By linking learning and play in this ways we are able to show each child's growth and development and better meet their needs.

Observations

You will complete 10 quality individualized observations per child each quarter.

You will add One piece of documentation from each domain added to each child's portfolio, each quarter.
Pieces of documentation may include; Creative works, Photos, Videos, quotes, and observations or actions/interactions.

Example; if you have a classroom display on emotions and you have a quote or other documentation of a specific child, you may use that same documentation in their portfolio. This can only be done if the child actually participated.

Individualization is key!

Meaningful Observations capture the child's development in the long run

Unsure if something counts as documentation?

Use the Observation Guide to help determine if it has the qualities of a quality observation, it should meet 3+ requirements.
