What are tools will you use to help you with supervising children in our outdoor/indoor classrooms?

Share challenges you face in holding yourself accountable, how can we help keep you supervising best?

What phrases do you use or will use to help your team improve their classroom supervision?

Any phrases you are needing help with? Share the common situation here:

Knowledge check

Finish this statement: Children need to be supervised during...

- Nap time
- Lunch time
- Restroom break
- Free play
- All of the above

Which of these staff members is supervising appropriately?

- Jon has head phones on to watch a training video during rest time. He is alone with the group of children.
- Carla is walking around the playground, watching and talking to children.
- Nila and Steph are both sitting in the block area with a small group of children.
- Georgia is looking for something inside the storage shed on the playground.

True or false? Children can be supervised even when they need privacy or want to be alone.

True
False

CHILD SUPERVISION
Worksheet

Name:

What zones do you see on your playground? Draw a simple map of your playground and identify where you would stand if you were the only teacher on the play ground and children were spread out.

On the same map label the number 2 in a different color and show where you would zone with two staff in the same situation. Lastly show where people would zone with full staffing on the playground (for PS use (4/5 staff for your map, for Too use 6-8 staff for your map).

Signature acknowledging you've read and understand the policies for Outdoor Play and Learning and Teacher/Child ratio, Classroom Assignment and Supervision Requirements.
